**In recognition of their continuous support to Boeing Defence Australia's

Military & Aviation Spares provided Boeing Defence Australia with outstanding support within tight customer deadlines. Wedgetail Deeper Maintenance was required to paint a special reflective coating on certain components prior to 28 April. The paint was out of stock and delivery of more paint was estimated to arrive 18 May. Military & Aviation Spares advised they could obtain the paint within the timeframe and worked with Fedex to facilitate the delivery to RAAF Base Amberley by 27 April. Military & Aviation Spares Director, Peter Bolton, personally drove to Brisbane Airport to deliver to deliver the supplies to the RAAF base.

**Congratulations to Military & Aviation Spares Pty Ltd for going above and beyond for
